# THE MAHINDRA STORY

**1945**

We started as a Steel Trading Company in Mumbai, India.

**1963**

Mahindra forms a joint venture with International Harvester to manufacture tractors in India.

**1981**

100,000<sup>th</sup> tractor rolled off the assembly line.

**2003**

1 Million tractor sales worldwide achieved.

**1947**

Assembling of the iconic Willy's Jeep begins.

**1977**

Mahindra forms it's own tractor division responsible for design, manufacturing and marketing.

**1994**

Mahindra enters the USA market with tractors.

**2005**

Mahindra opens in Brisbane as Mahindra Australia.

**2007**

Pik-Up launched in Australia. Wins the coveted Japanese Quality Medal for TQM in factory.

**2012**

200<sup>th</sup> Airvan 8 seater Aircraft off the line in Gippsland Victoria. Mahindra XUV500 launched in Australia.

**2015**

Mahindra acquires Mitsubishi Agricultural Co of Japan.

**2017**

NEW eMax25s tractor model released.  
NEW 6060 series 2WD/4WD launched.  
Next Gen PikUp launched.  
Mahindra acquires Hisarlar Implement company of Turkey.  
Mahindra acquires Erkunt / Armatrac Tractors of Turkey.

**2019**

Mahindra crosses 3 million Tractors sold worldwide.

**2010**

Mahindra becomes the number 1 selling tractor in the world by sales volume, overtaking John Deere globally in tractor sales.

**2013**

Becomes the 3<sup>rd</sup> largest tractor selling brand in respective HP segment of USA market.

**2016**

Matthew Hayden joins Mahindra Australia as our brand ambassador.  
mPact XTV range launched.

**2018**

Max28/36 3650PST/6075 launched.  
Mahindra acquires Sampo Rosenlow of Finland.

An aerial photograph of a green grassy field. A line of red tractors is parked in a vertical line, with a few more tractors parked at an angle to the left. The tractors are of various models, some with different attachments.

# #1 SELLING TRACTOR

**Mahindra Tractors Australia was officially opened by the Honourable Tony McGrady – previous Mayor of Mt Isa, and Minister for State Development and Innovation on the 11th February 2005 in Brisbane, 15 years ago.**

Mahindra's tractor range have forged an ironclad reputation for bulletproof toughness and durability. This starts with design. It comes from incorporating quality steel in every Mahindra Tractors' DNA. In fact, Steel has been the DNA of Mahindra since the company started in 1945 as a Steel Trading Company. Mahindra & Mahindra limited today has a large joint venture steel plant with Sanyo Special Steel Co., Ltd and Mitsui & Co., Ltd of Japan, keeping high quality steel at the forefront of its Tractor design since the first Tractor rolled off the line in 1963 as part of a joint venture with International Harvester in India.

Today Mahindra Tractors have crossed 3 million units sold worldwide, with the help of the USA market where Mahindra is the number 3 sold Tractor brand. Acquisition of the Mitsubishi Agriculture Co Ltd of Japan in 2015, where our Max range of hydrostatic tractors are made, Sampo Rosenlew in 2018, a large player in the European Combine Harvester market to new markets like Turkey, where Mahindra have acquired implement company Hisarlar and Tractor manufacturer Erkunt / Armatrac Tractors. Mahindra continues to be at the forefront of tough durable farm tractors, but is pushing into the connected farm segment with DiGiSENSE.

**The future looks bright!**

## I'M PROUD TO OWN A MAHINDRA EMAX25

We've had the eMax on our 5 acre property in Brisbane which is a mix of landscaped lawns, permaculture garden and semi treed forest for 4 years now.

What I really like about it is its ease of use. My wife, daughter or sons and I can get on there and do work straight away without fail. Starts first every time and the HST makes it so easy to manoeuvre around our property. The controls are also easy to handle, which is great because the 4in1 bucket makes it super quick to pick up and spread much and soil around the gardens. As a family we pride ourselves on having our own livestock; chooks, turkey's, geese, ducks, pigs and vegetables all organic which makes for great homemade meals, but more importantly to me is our kids have grown up knowing where the food comes from and the work that goes into maintaining even our little plot.

I'd have a bloody sore back if it weren't for our little Mahindra eMax, but the most rewarding thing is creating a loving sustainable environment for our family to grow up.

A handwritten signature in white ink, reading "Matthew Hayden".
